Profile

Second year undergraduate in Data Science, which is a mixture of Statistics, Maths, and Computing. I have 2 years of technical experience working under high pressure, long hour environments. I have gained the ability to be calm, methodical and logical in my approach in all scenarios of life as well as expanding my knowledge skills relating to the I.T Industry. Combined with my experience in waiting, developing my customer service, communication and team working skills. Makes me believe that I have the best of both worlds, making me an asset to your team no matter the scenario.

Experience

Ionoco LTD Broadcast Technician, August 2017 – June 2019

The main role of a Technician at Ionoco is to provide and maintain the hardware used for our projects, such as:

- Assigning hardware to projects
- Travelling around the country to setup and insure all hardware operates smoothly on projects.
- Rigorous testing of all hardware before our systems is shipped to minimize downtime and ensure operations run without a hitch.
- Preparing hardware for projects
- Supporting other staff and clients with their needs
- Repair and maintenance of hardware
- Shipping and Handling
- Building custom electronics
- Onsite installation of hardware

Deep Blue Restaurants, Waiter 2017

At this position I had a variety of duties since we were understaffed. These tasks would include restocking all stations, helping out the Chefs with prep and cleaning food, giving the pot-washers with their cleaning duties, advertising to new potential customers and also all my waiting duties, such as day to day interaction with customers, cleaning tables offering my own personal recommendations with a smile all with the goal to give the customers the best experience possible.

Various Waiting and paper round jobs from the ages of 13 – 16 years old
