PERSONAL STATEMENT

Living in Winchester my whole life I've always enjoyed competitive sports such as Football and Long distance running. This competitive nature has been conveyed into most parts of my life especially when it comes to the workplace, I am a highly motivated individual with a get up and go attitude. After studying Level 3 BTEC Business along with A Level Media at Barton Peveril College it motivated me to start my music production and shoe reselling business. Running these online over various different social media platforms it helped learn the ins and outs of promotion and reaching the target audience. Furthermore it leads to more personal development within the graphic design Industry, As you can see below; These are very free will businesses as they don't need much attention when it comes to making sales. Therefore I find myself having an excessive amount of free time on my hands leading me to look for full time work.
