Personal

I am a 22 year old music producer from Perthshire Scotland. I am a verified artist on spotify and apple music. I have been making music for 2 years now and have done many courses. I am about to do an online master diploma course with point blank music school voted the best music school there is by DJmag with schools in London, Los Angeles, Ibiza, Mumbai and china. music is my passion and ambition always been my dream ever since I was 16 to have a career in the music industry as an artist (Producer/DJ) I bring back old school 90s rave sounds with my own unique style to them I would say over the 2 years of making music I have developed my own unique sound and style of dance music and I will continue to do so my artist name is DMZ and on streaming platforms it is DMZ (UK) I will continue to grow myself as an artist and to continuously grow my knowledge on music production and build on my fanbase and network with other artists.

I also love gaming. I have always done so for as long as I can remember. If I am not making music or working I will be playing my playstation. I have 4 consoles PS2, PS3, PS4 and the latest generation PS5. The only console I have never played is the PS1.

And finally if i am not making music or playing games i also love to watch series and movies and of course to go to festivals/clubs to see my favorite DJs play that will inspire me more to make the music i know and love.
